STATEMENT OF THE SOLICITOR GENERAL

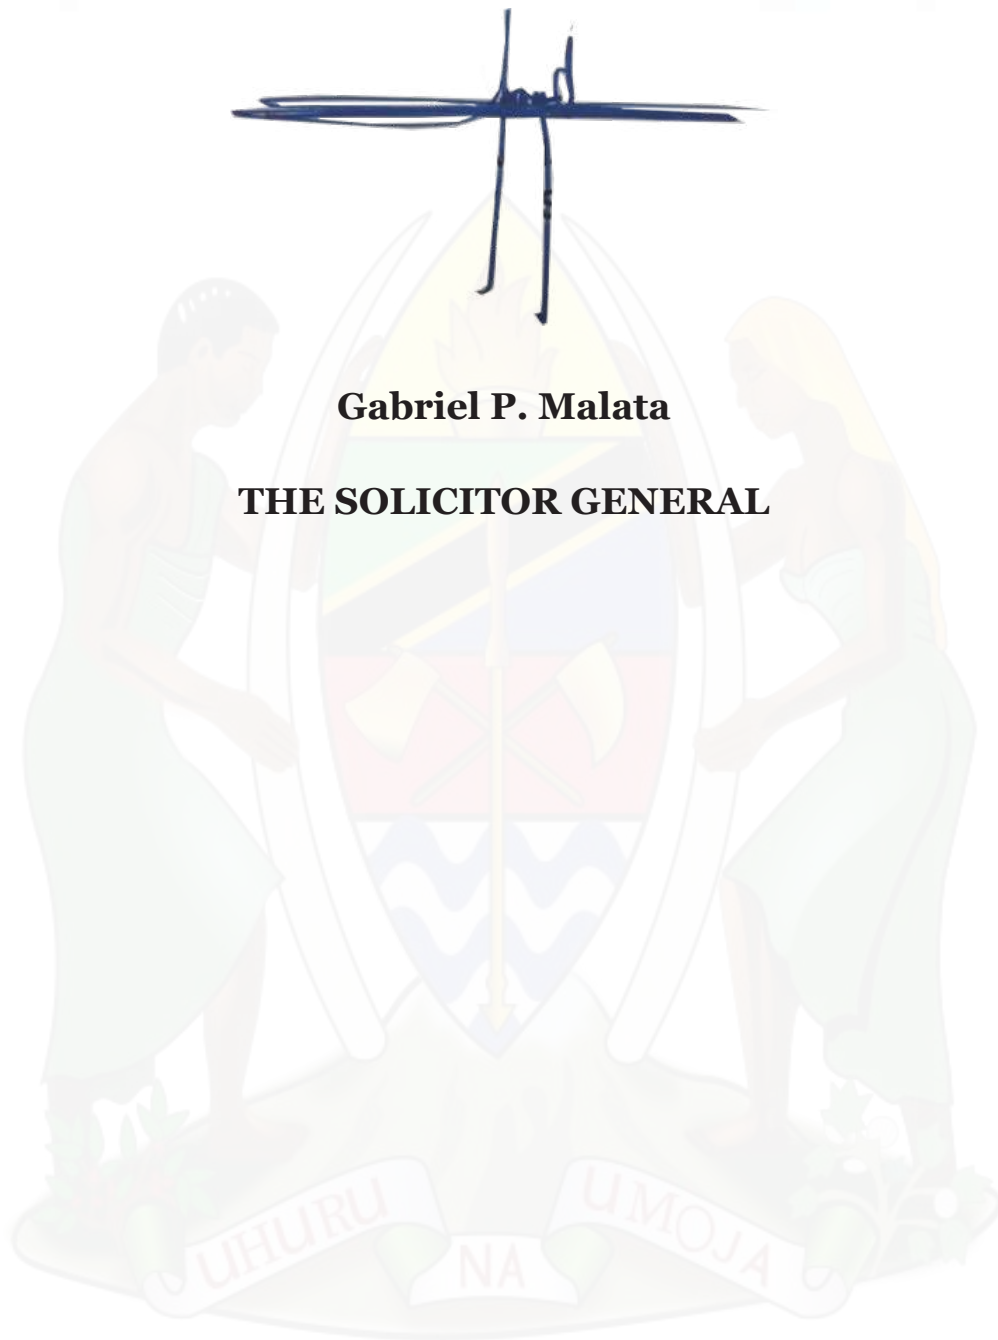

It is my pleasure to present to you the 9th Bi-annual Report recording the Office of the Solicitor General's (OSG) performance in the second half of the financial year 2021/2022. This report updates the progress made by OSG in implementing its mandate of representing the Government and its institutions in courts of law and arbitral tribunals both locally and internationally.

I would like to acknowledge the support and cooperation we have been receiving from our stakeholders i.e. the MDAs, LGAs, Public Corporations, Judiciary and Parliament. The progress recorded by OSG in representing the Government in civil cases, arbitration or in out of Court negotiations could not have been possible without the support from these key stakeholders. Their valuable contributions towards the implementation of our mandates are highly appreciated.

During the period under review, OSG focused on professionalism and operational excellence in conducting civil litigation, arbitration and related proceedings effectively. The OSG handled 5,880 cases of which 5,768 are Civil cases and 112 arbitration cases. Further, during the reporting period, 361 cases were concluded, of which 349 were civil and 12 were Arbitration cases. Furthermore, out of 361 cases concluded the office on behalf of the Government.

The OSG has been vigorous in defending the interest of the Government through negotiations and mediation. Among other cases, OSG had an opportunity to negotiate a case in which the Government was adjudged to pay 13,482,774,850 shillings but through negotiation the claim was dropped to 1,503,524,720 shillings thus saving 11,979,250,130 shillings amount which will be used in financing other social services.

We are grateful of this many achievements, and hope to achieve more milestone and continue to effectively represent the Government and its institution, whether in a court of law, arbitral Tribunal or negotiation table

Gabriel P. Malata

THE SOLICITOR GENERAL

STATEMENT OF THE DEPUTY SOLICITOR GENERAL

The Office of the Solicitor General has continued to discharge its mandate diligently by coordinating cases and representing the Government in Courts of law and Tribunals in civil and arbitration matters. During this period, many things have taken place ranging from increase in the number of our staff, conducting induction training for the new staff, modernizing the office with IT equipment, improving the Case Inventory

Management System (CIMS), purchase of books and reference materials and purchase of 13 motor vehicles.

It will be noted that, during the said period, and based on the improvements undertaken, State Attorneys have been able to carry out mandate of the OSG with relative ease and efficiency causing a substantial rise in stakeholder's confidence. All the above have been made possible due to the support of stakeholders and the commitment of the OSG's staff.

Our achievements are rooted on the firm support, strong leadership and good governance by the 6th Phase Government. The timely monthly budget dispersed to the OSG have made it possible to invest in human capital, technology utilization, improved working environment and provision of working tools. All this has further led to a boost in the overall morale of the staff in general. Viva Madam President, Her Excellence Samia Suluhu Hassan!

As a public law office, we believe in continuous learning and have therefore invested in short and long term training to our staff. It will be recalled that, in our last Bi-Annual Report, we reported that we obtained Government's approval to commence construction of our head offices at Government City-Mtumba in Dodoma and engaged Tanzania Building Agency (TBA) as a consultant. We are further pleased to report that; a tender was floated for construction of the said building and SUMA JKT became the successful bidder. We have confidence in their ability; knowhow; and we have

already signed a construction agreement and handed over construction site to them.

I hope as you review our activities, you will notice that we have fulfilled the expectations of our stakeholders. We did not only raise our profile as the best public law office that leads the Government in litigation, but also, we have deepened and strengthened essential partnerships. Most importantly, we have diligently, wholehearted and justly defended the interests of Government and the public at large, by making sure that the Government and its institutions are concentrating in undertaking their main activities while we are concentrating in handling the legal risk involved.

Thank you so much for your attention.

Dr. Boniphace Nalija Luhende

4. CASE MANAGEMENT AND QUALITY ASSURANCE DIVISION

The OSG, through the Case Management and Quality Assurance Division, has strived to manage cases and ensure compliance of quality standards in civil and arbitration cases.

a. Case Management

During the period under review, the office has continued to coordinate, supervise and monitor the conduct of civil and arbitration cases. The division provide a link between the OSG and other Government institutions representing interests of the Government in judicial or quasi-judicial bodies.

More efforts have been put on case analysis and legal research, with a view to identify and analyse types of cases against the Government and entities by looking at their complexity, sensitivity, adversity and volume of such cases with the view of clustering them and devising both response and preventive strategies. This also included identifying public institutions facing litigation and arbitration proceedings and developing the intervention strategies and approaches which include

early request for information and meetings at the notice to institute legal proceedings stage, discussion on possible settlement and bipartisan meetings and discussions with the adverse party (s).

Currently, the OSG maintains a register of all institutions' cases which makes it easy to follow up and intervene whenever need arises. Monitoring of Government cases has not only reduced unnecessary losses but it has also significantly reduced the risk of mishandling of important Government information being divulged to unintended parties.

b. Quality Assurance

The OSG strives to ensure quality services are provided to the Clients. In order to provide quality services to its stakeholders, the OSG has developed Quality Assurance Standards and Practice Directions to the State Attorneys.

By virtue of Paragraph 5(6) of the Solicitor General (Establishment) Order, the Solicitor General has further continued to appoint and designate qualified state attorneys from different Government Institutions to perform the functions or exercise powers of the Solicitor General by issuing instruments.

The OSG has further prepared a checklist which is an aid to facilitate inspection of state attorneys when representing the Government in court. The Checklist covers many aspects such as; list things to be done; and points to be considered before, during and after litigation; in order to assess a fair view of compliance level to court practices and procedures.

a. Budget ceiling limitation

The allocated budget is minimum compared to the range duties and responsibilities vested on the OSG.

b. Insufficient number of staff

The OSG staffing level required during the period under review was at least 312 staff. However, currently the OSG had only 177 staff. Irrespective of having filled some vacancies, the OSG still has a shortage of 135 staff.

The OSG has insufficient number of staffs with specialized skills in dispute prone areas like Oil and gas, Investment law, Construction Contracts, aviation, maritime law, and international negotiation skills.
